NEOSINO NANOTECHNOLOGIE GMBH
Wiener Strasse 28
A-8820 NEUMARKT

The Central Veterinary Research Center in Dubai has recently used the Nanocream provided to us by NEOSINA / EQUINANO in order to treat a camel which had a number of large wounds.

We were extremely pleased with the performance of the Nanocream, the use of which, in our opinion, significantly expedited the healing process, to the extent that the wounds were healed within 10 days of commencing the treatment.

We shall therefore be utilizing the Nanocream and food supplements in the future.
